06/30/2014		General Motors	Manufacturer Safety recall issued NHTSA# 14V346 Recall #N140294 IGNITION KEY Status: Remedy Available Locate an authorized General Motors dealer to obtain more information about this recall. - Learn more about this recall
<p>Description: General Motors has decided that a defect which relates to motor vehicle safety exists in all 2010-2014 model year Chevrolet Camaro vehicles. There is a risk, under certain conditions, that some drivers may bump the ignition key with their knee and unintentionally move the key away from the "run" position. If this occurs, engine power, and power braking will be affected and power steering may be affected, increasing the risk of a crash.</p> <p>The timing of the key movement out of the "run" position, relative to the activation of the sensing algorithm of the crash event, may result in the airbags not deploying, increasing the potential for occupant injury in certain kinds of crashes. Until the recall has been performed, it is very important that drivers adjust their seat and steering column to allow clearance between their knee and the ignition key.</p> <p>Remedy: Dealers are to provide two replacement key rings. Vehicles with slotted keys will also receive key inserts. This will be provided free of charge. Please contact your dealer now to order parts. Until the recall has been performed, it is very important that you adjust your seat and steering column to allow clearance between your knee and the ignition key.</p>

Glossary

[View Full Glossary](#)

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Inspections

Many states or counties require annual or biennial emissions and/or safety inspections. Odometer readings are collected at the time of the inspection.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used

as proof of ownership.
