Inspection Station

- Passed emissions inspection

01/04/2018

FCA US LLC

Manufacturer Safety recall issued

- NHTSA #17V-821

- Recall #T79 BRAKE TRANSMISSION
SHIFT INTERLOCK

- Status: Remedy available

Click here for a copy of the owner letter for this Recall or call 1- 800-853-1403 if you have any questions or need additional information on this recall.

⊖ **Learn more about this recall**

Description: The Brake Transmission Shift Interlock (BTSI) locking pin may become stuck in the open position. A BTSI locking pin stuck in the open position may allow the transmission to be shifted out of PARK and to or from any gear position without depression of the brake pedal and/or without the key in the ignition, if a key is applicable.

The transmission may be shifted of the PARK position without a key in the ignition or a brake pedal application. This increases the potential for an unintended vehicle rollaway that may result in a vehicle crash or injury without prior warning.

Remedy: For 2013-2017 model year; Inspect the Brake Transmission Shift Interlock (BTSI) operation and replace if necessary. The Body Control Module (BCM) software will also be updated. For 2009-2012 model year; replace the BTSI, BCM software update not applicable.

FCA US LLC

Manufacturer Safety recall issued

- NHTSA #18V-160

- Recall #U04 2009-2012 DS/DX FRAME
BRACKET

- Status: Remedy available

Click here for a copy of the owner letter for this Recall or call 1- 800-853-1403 if you have any questions or need additional information on this recall.

⊖ **Learn more about this recall**

Description: The front fuel tank strap frame T -Slot bracket on the above-mentioned vehicles may corrode permitting the front fuel tank strap to detach. With the front fuel tank strap detached, the rear strap primarily secures the fuel tank, however, the front of the fuel tank may be allowed to lower several inches.

Detachment of the front fuel tank strap could potentially allow the front of the fuel tank to make contact with the ground, increasing the risk of a fuel leak. A fuel leak in the presence of an ignition source could result in a fire.

Remedy: FCA US will conduct a voluntary safety recall to install a fuel tank strap reinforcement bracket on all of the involved vehicles. If the fuel tank strap is found to be

disconnected from the original frame bracket, the front and rear fuel tanks straps as well as the locking nuts, will be replaced.

Have Questions? Consumers, please visit our Help Center at www.carfax.com. Dealers or Subscribers, please visit our Help Center at www.carfaxonline.com.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
